## OBJECTIVE

Dedicated IT and Cybersecurity student with a track record of effective leadership and technical acumen. Proven ability to manage budgets, lead teams, and resolve complex issues in high-stress environments.

## EDUCATION

### Northern Kentucky University

*Bachelor of Science - Major: Cybersecurity, Computer Information Technology - Minor: Computer Science*

• GPA: 3.64

**Aug 2023 - May 2027**

*Highland Heights, KY*

## PROFESSIONAL EXPERIENCE

### GE Aerospace

*Project Analyst Intern*

**May 2026 - Aug 2026**

*Evendale, OH*

- Proposed software consolidation strategies for Digital Asset Management and Philanthropy tools by analyzing historical contracts, presenting business cases that project upwards of \$140K in cost mitigation for the upcoming budget cycle.
- Authored 30+ Confluence pages for product documentation and implemented a universal product overview template, establishing official "Standard Work" to guide future documentation processes.
- Orchestrated vendor outreach and user testing for new software, coordinating 10+ strategic calls between external partners and internal stakeholders across Corporate Affairs and other departments.

### Northern Kentucky University

*Resident Assistant*

**Mar 2025 - Aug 2026**

*Highland Heights, KY*

- Coordinated crisis intervention and conflict resolution for 41 residents, using analytical problem solving to de-escalate high-stress situations, which maintains a safe living environment and reduces incident reports
- Led programming activities and collaborative workshops that boost community engagement by 50%
- Facilitated cross-departmental coordination between housing, maintenance, and academic support services by submitting requests through ServiceNow ticketing system, improving communication and reducing issue-resolution time

### Jefferson County Schools

*Substitute Teacher*

**Oct 2024 - Present**

*Louisville, KY*

- Implement lesson plans from absent teachers, ensuring educational continuity in classrooms with an average of 25 students
- Adapt teaching strategies to accommodate diverse learning styles and abilities, promoting inclusivity

## ACADEMIC PROJECTS & PROGRAMS

### Scorekeeper App

*Northern Kentucky University*

**Nov 2024 - Dec 2024**

*Highland Heights, KY*

- Designed and developed a scorekeeper app, allowing users to either create an account as a viewer to simply view games and teams, or as a scorekeeper with full administrative access to edit and manage content
- Contributed to a team-based project, coding the login, registration, and home pages using languages that included PHP, SQL, and CSS
- Executed QA testing and debugging, presenting the application's functionality to the class

### ChromeDawg (Student IT Help Desk)

*Louisville Male High School*

**Aug 2022 - May 2023**

*Louisville, KY*

- Provided technical support to over 2000 students and faculty, troubleshooting hardware, software, and network connectivity issues
- Resolved an average of 10 help desk tickets per week demonstrating strong problem-solving and technology support skills

## LEADERSHIP & OTHER ACTIVITIES

### Interfraternal Council

*Vice President of Internal Affairs*

**Dec 2024 - Dec 2025**

- Directed financial operations for the executive board, managing a \$2,000 operating budget, overseeing member dues collection, and strictly controlling all expenditure and reimbursement requests.
- Led the internal functions of the council, serving as secretary of the General Body and providing guidance and support to member fraternity chapters
- Spearheaded a cost-saving plan to eliminate an unused vendor, reducing annual operating expenses by over \$1,000

### Northern Kentucky Dodgeball Club

*Officer*

**Dec 2023 - May 2025**

- Built up our club from 6 active players to over 12 active players, allowing us to compete nationally
- Developed and implemented new training, including drills and film analysis, which improved team efficiency by 25%
- Led the club to a national tournament, competing against 20+ collegiate teams

## SKILLS

**Languages:** Python, Java, SQL

**System & Infrastructure:** Linux, VMWare Workstation Pro, Network Troubleshooting, Automation & Scripting, ServiceNow

**Security & Analysis:** Splunk, Wireshark, Metasploit, Threat Hunting

**Business:** Confluence, Business Case Development, Budget Optimization, Cost Reduction
